

Now Hiring Independent Contractors

We are expanding our playful clinical team of telehealth providers!

Who are we?

[PlayfulLeigh Psyched](#), a place for playful socioemotional wellness and development, is an expansive telehealth practice founded in 2018, by [Dr. Dowtin](#) who is a Black ciswoman. PlayfulLeigh Psyched provides therapeutic services infused with cultural humility, social justice, and trauma focus. We specialize in infants and young children, perinatal mental health folks, and survivors of trauma across the gender spectrum in languages of English and ASL. All of our services are steeped in understanding trauma and that childhood experiences impact our development and how we interact with one another as adults. Therefore, we provide nurturing family-centered, trauma- and culturally-informed services for people for all ages, genders, abilities, and backgrounds.

Are you a good fit for our practice?

We are scanning the country to welcome therapists from many cultures who foster cultural humility, social justice, and affirming identities. Our vision is to facilitate emotionally healthy approaches that allow people to thrive in this world. Therefore, we envision therapists providing services that empower and foster healthy relationships across the lifespan. We are seeking therapists who are passionate, playful, creative, committed to the health and wellness of their patients, and who are eager and forever open to ongoing learning.

What are the requirements for consideration?

You should consider applying if you are a mental health therapist who is:

- An independently licensed psychologist, counselor, or social worker
- A graduate level counselor in [Maryland \(LGPC\)](#) or Missouri. *Graduate level clinicians (LGPCs) in Maryland may be able to seek in-house clinical supervision with Dr. Dowtin depending on availability.*
- Willing to maintain a minimum caseload of 8 patients. Preference given to clinicians ready to make a full-time commitment (15 - 20 weekly patients), but everyone will be considered.
- Willing to accept at least two low-income or uninsured patients under market value

What resources does PlayfulLeigh Psyched provide clinicians?

- Marketing (we pay for one professional directory up to \$30/month)
- Electronic Medical Records & teletherapy platforms to assist in your practice management
- Currently, we handle all *private pay* scheduling and billing on your behalf
- Access to a weekly professional consultation meeting for clinical case discussions

What's the first step in applying?

Send your cover letter to Dr. Dowtin discussing why you think you are a good fit for PlayfulLeigh Psyched along with your resume or curriculum vitae (CV) to [our Job Application](#).
